

Stationary Source Division

presents

Graphic Arts

Course #230.4

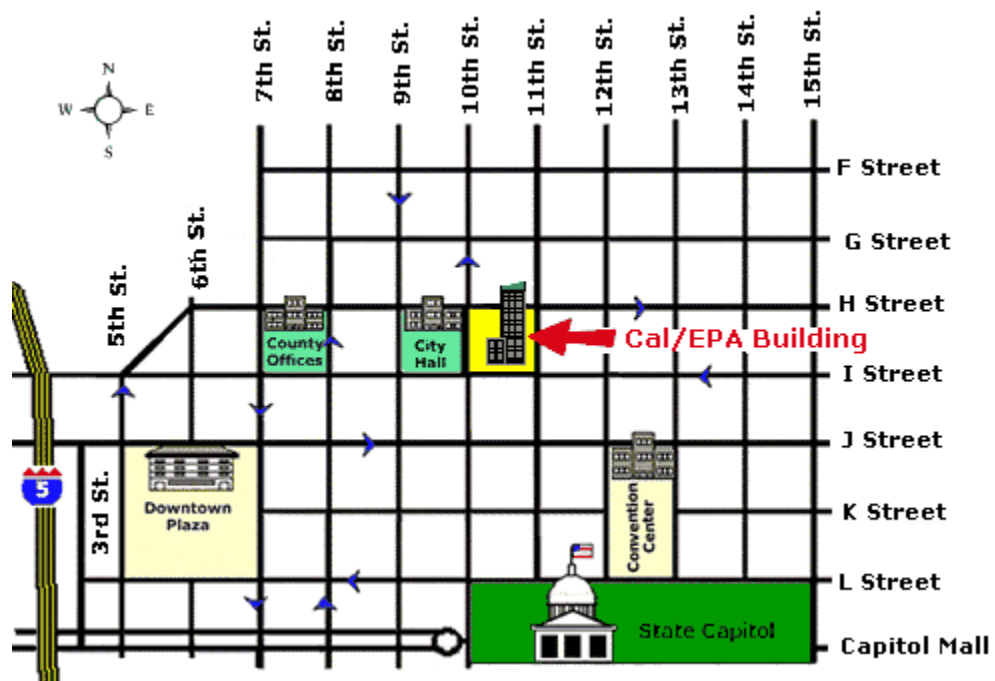

This course addresses the use of inks, coatings, adhesives, surface preparation and cleanup materials used in the graphic arts industry. Classroom discussion will focus on printing methods, process descriptions, facility inspection procedures and inspector safety. Volatile Organic Compound (VOC) content, graphic arts rule limitations and basic VOC emission calculations are outlined and discussed, as well. The associated afternoon field visit (mock inspection) will take students through a local printing operation to see one or more of the printing methods discussed in the class. Please bring any applicable safety equipment that is required by your District during the field visit.

**March 13, 2003
8:30 AM - 4:00 PM
CAL/EPA Headquarters building
1001 I Street
Sacramento, CA 95814**
